Aha The Realization Book By Janet McClure:

AHA! The Realization Book Janet McClure, Lillian Harben, 1997-06-01 What is a realization It is bringing together making real and understanding where you are now with respect to a certain area of your life usually a certain large area in your life Suddenly something that you didn't see or understand previously becomes crystal clear especially to the mental body If you recognize that you create your own life from your beliefs about yourself and this book is based on that premise then you know also that you can change your life improve it by changing the beliefs that are not serving you well Usually however to make a complete change it is necessary to recognize or realize more than just mentally Your emotional body's beliefs and needs must be met The emotional body needs to feel supported as you change this pattern The emotional works through feelings and symbols but its conclusions are just as valid just as meaningful and even more powerful than the mental conclusions In this book I Vywamus have given many possible causes of a lot of undesirable or unclear circumstances that you may be mirroring in your life You can read the sections and see if they seem to apply to what you are mirroring into your life from your beliefs If you are manifesting into your life in a way that is not clear then reading this book may give you a light bulb or a realization that you are holding a specific erroneous belief

Soul Evolution Father Arthur Fanning, 1995-01-01 Lord God Jehovah as channeled through Arthur Fanning reveals the course humanity must take to lead itself out of its fascination with density and the material into an expanding awareness that each human is a god with unlimited power and potential An enlightening journey into higher consciousness

Light Techniques That Trigger Transformation Janet McClure, 1992-07-01 The cofounders of the Tibetan Foundation bring you the first of a new level of teachings techniques based on the technology of light Vywamus says I am a spiritual teacher light energy if you will who has seen and been inspired to come to Earth by the light energy of your planet Through the process of evolution the planet approaches the fourth dimension and thus has awakened responses from the fourth dimensional perspective that are now adding light to it There is a basic level of learning that has already been accepted that transcends anything else ever before within the history of your planet and this includes that light civilization called Egypt Many of you are beginning to utilize those abilities you used in Egypt Light is the carrier of receptivity and it cannot evolve until the receptivity area is lit up until your heart is acknowledged as the means to light up the ways to create your life and your part of the Creator's plan for Earth Each time you relate and discover through a light exercise a way to unite the conceptual emotional spiritual and physical you will have lit up a possibility that can then transcend in a very practical manner those areas that have seemed difficult or not yet clear in your life This book is a very practical tool in using light to transcend because it has lit up a clearer perspective

The Source Adventure Janet McClure, 1998-12-01 Life is discovery and this book is a journey of discovery to learn to grow to recognize the opportunities to be aware It asks the big question Why am I here and leads the reader to examine the most significant questions of a lifetime
