

AIR FREIGHT MARKET ANALYSIS

AUGUST 2015

KEY POINTS

- ➔ Air freight volumes were broadly unchanged in August compared to a year ago, with freight tonne kilometers 0.2% higher. The August data shows a pause in earlier declines in air freight volumes, consistent with developments in world trade activity. That said, the trend in air freight volumes and world trade has been in decline for the best part of 2015.
- ➔ The first chart below shows the growth trend in air freight volumes and world trade. FTKs were broadly unchanged in August compared to July, but due to recent declines, the industry is still almost 2% smaller in August than it was at the end of 2014. The downward trend in world trade volumes appears to have paused, at least for the time being, and that has helped contain further weakness in air freight markets.
- ➔ Airlines in Asia Pacific continue to experience weakness, but declines in volumes have eased up a bit as trade to/from emerging Asia has stopped shrinking. A slight improvement for European carriers also helped contain further declines in the industry result, with airlines in that region seeing a small 0.7% rise on a year ago. Recent improvements in Eurozone manufacturing business activity could finally be starting to support air freight demand.
- ➔ Continued growth in air freight carried by Middle Eastern airlines (up 10.4% in August year-on-year), helped offset some of the decline that North American carriers are experiencing (down 3.3% in August year-on-year). Airlines in North America continue to see significant falls in FTK volumes since the boost from modal shift due to sea port congestion earlier in the year.
- ➔ Some of the conditions that led to the decline in world trade this year – a combination of weaker than expected global economic growth, particularly in emerging markets, as well as shifts toward the domestic market in China – are persisting. There are some tentative signs that things won't get worse – export orders have stabilized – but if the current trend were to continue, we would see negative year-on-year comparisons in the coming months.

Global Governance of Civil Aviation Safety Nilgun Ozgur, 2022-09-30 This book indicates the shortcomings of the current international legal system and customary international norms that govern international aviation law to comply with contemporary air transport market realities As the air transport market develops globally the safety regime of civil aviation should also be governed and applied globally In this book the author departs from current international legal norms to examine the emerging legal field of global administrative law Through that lens the possibility of reconstructing the set of legal mechanisms that govern domestic and international administrative interaction in the global field of aviation safety is explored This book demonstrates that a legal system is never complete but always develops in tandem with changing needs i.e. the participation of the affected parties Exploring the principles of GAL theory contributes to addressing the contemporary legal issues relating to state compliance with international aviation safety standards that would otherwise not be covered by customary international law In particular the principles of GAL theory regarding global governance and the public character of global regulations the role of individuals and states in global

governance and state sovereignty are considered valuable contributions to contemporary global aviation safety issues in practice It is asserted in this book that proper checks and balances in global aviation safety can be improved by making these accessible to individuals by way of national courts Finally establishing public awareness of global aviation safety standards will eventually create greater pressure on states to implement and enforce them This book is in an area increasing academic and research interest of practitioners of public international aviation law global administrative law global governance and global aviation safety global air transport market regulations
