The Pilot in Command (PIC) acted as Pilot Monitoring (PM) and the Second in Command (SIC) acted as Pilot Flying (PF). The Flight Data Recorder (FDR) recorded that many master cautions activated following the failure of the Rudder Travel Limiter, which triggered Electronic Centralized Aircraft Monitoring (ECAM) message of AUTO FLT RUD TRV LIM SYS. The crew tried repeatedly to reset the computers, but the autopilot and auto thrust disengaged, and the flight control reverted to Alternate Law. The investigation showed that the loss of electricity and the RTLU failure were caused by a cracked solder joint. All occupants of the plane were killed in the accident. **Advances in Guidance, Navigation and Control** Liang Yan, Haibin Duan, Yimin Deng, 2025-03-02 This book features the latest theoretical results and techniques in the field of guidance, navigation, and control (GNC) of vehicles and aircrafts. Aftermath Robert Firth,2013-02 Tenerife the worst accident in aviation history like all pilots Captain Van Zanten s decision to go for the take off was only one of the many thousands of decisions he had made in his career Rain snow or fog obscuring the view of the entire runway was not uncommon and something he had experienced many times He was thinking about many things the delays his inconvenienced passengers the schedule and the flight legs facing him after dropping his passengers just 25 minutes away Of course he was 100% certain that the Pan Am aircraft was clear of the runway As his aircraft was gaining speed he was readying himself for the mental switch from visual to instruments as he would be climbing through the fog The instant he saw the Pan Am aircraft looming into view directly ahead of him he knew he knew right then and right there he knew he was dead he knew they were all dead everything flashed through his mind Instinctually he pulled back on the yoke but he knew No pilot would ever consider for a moment initiating a take off unless he was absolutely certain the runway was clear Van Zanten s decision to shove those power levers forward began a terrible inevitable chain of horrendous events sending a enormous shock wave of loss and sorrow down through the decades His two children never saw their dad again Consider the hundreds dead each with many close friends wives and children relatives and associates all suffering from this captain s fateful decision As the wrecked tortured and doomed fuselage hurled itself toward its fiery destruction he in those last seconds understood everything The survivors and relatives of the dead have to live for the rest of their lives with their losses and every hour of every day they remember and are in this sense forever damaged the changes are profound and permanent deep scars in the psyche AFTERMATH speaks to these things In a way the accumulated grief and loss of the aftermath eventually eclipses the enormity of the horrendous event itself
