Unshockable Love John Burke, 2014-08-26 Why were sinners so attracted to Jesus yet repelled by the religious It had everything to do with the heart of Jesus They sensed that Jesus was for them not against them When broken sinful people feel repelled by Christians we must assess whether our hearts reveal the heart of God or reflect the heart of the Pharisees Through this engaging study of Jesus s encounters with imperfect people combined with real life stories of ordinary people having Christlike impact readers will learn how to show unshockable love toward those around them

Narratives and Numbers: Empirical Studies of Pentecostal and Charismatic Christianity Mark J. Cartledge, 2017-06-06 In Narratives and Numbers Empirical Studies of Pentecostal and Charismatic Christianity Mark J Cartledge provides a rich set of essays on key themes in Pentecostal and Charismatic Christianity Using empirical research methods drawn from the social sciences he interrogates his originally gathered data by means of theology and sociology These studies address such issues as glossolalia prophecy spirituality gender and the family the doctrine of the Trinity socialization altruism and the practice of healing Collectively they provide

original insight into one of the most vibrant forms of Christianity today Additionally these studies model how empirical research in religion can be brought into conversation with theological discourse The findings of this research can be used by scholars and students from different perspectives and disciplinary contexts

Principles of Cancer Biotherapy R.K. Oldham,2012-12-06 At the time of the first edition of Principles of Cancer Biotherapy this book represented the first comprehensive textbook on biological therapy Whereas in 1991 when the second edition was published there was still some doubt on the part of many oncologists and cancer researchers as to the therapeutic value of these new approaches it is now generally agreed that biopharmaceuticals are producing major opportunities for new cancer therapies Cancer biotherapy has truly matured into the fourth modality of cancer treatment The third edition is now needed as a result of the tremendous progress that has been made in recent years using biologicals in cancer treatment The book summarizes an evolving science and a rapidly changing medical practice As we near the millennium it now becomes possible to envision a much more diversified system of cancer research and treatment that will afford greater opportunities for patients Some forms of cancer biotherapy use the strategy of tumour stabilization and control through continued biological therapy akin to the use of insulin in the treatment of diabetes This textbook illustrates new methods of thinking and new strategies for control of cancer It is always difficult to move from past dogma to future opportunity but this third edition of Principles of Cancer Biotherapy illustrates why it is so important to the patients for researchers and clinicians to explore and apply these new opportunities in cancer biotherapy
