Ambrose Bierce, 2023-04-08 Ambrose Bierce s second major short story collection Can Such Things Be collected nearly all of Bierce s supernatural horror stories Bierce himself was a skeptic of the supernatural having once written a satirical essay The Clothing of Ghosts in which he insisted that The materialized spook appealing to our senses for recognition of his ghostly character must authenticate himself otherwise than by familiar and remembered habiliments He must be credentialed by nudity and that regardless of temperature or who may happen to be present Despite his personal skepticism Bierce was able to capture the essence of the supernatural horror story The Moonlit Road is a strong example providing three distinct vantage points of the same events and both The Death of Halpin Frayser and The Damned Thing are frequently anthologized as pioneers in the genre Not all stories in the collection are strictly ghost stories Moxon s Master is one of the first examples in English literature to describe a robotic thinking machine and the fate of its master and Ha ta the Shepherd is a tale of a young man s search for meaning in his life Bierce also plays with the idea of holes in reality in the various Mysterious Disappearances stories portals to horrifying locations in The Spook House and parallel dimensions or altered states in A Psychological Shipwreck and The Realm of the Unreal H P Lovecraft discusses Bierce in his essay Supernatural Horror in Literature quoting Samuel Loveman In Bierce the evocation of horror becomes for
