American Psycho Florian Burkhardt, 2005-11-04 Seminar paper from the year 2005 in the subject American Studies Culture and Applied Geography grade 2.0 University of Stuttgart language English abstract Bret Easton Ellis American psycho has been a highly controversial book Many critics condemned this novel before it had been published so Ellis even had to search for a new publishing company The indignation at American psycho had been so fierce it verged on hysteria and some interest groups feminist and religious groups for instance agitated against the author and his work¹ The main reason why critics reacted that outraged was the explicit and detailed description of violence in this book² In this paper I will discuss the appearance of violence in American psycho But first I want to create a picture of social phenomena in the USA of the 80 s as they are described in the novel in order to provide the setting the atmosphere in which the violence takes place This will help

to give an opinion of this violence and to interpret it Then I will discuss how violence is presented in the text In the fourth

Intimate Violence Laura E. Forms And Function Till Neuhaus,2020-07-24 Seminar paper from the year 2015 in the subject American Studies Literature grade 1 7 Bielefeld University Linguistik und Literaturwissenschaft language English abstract Why was there such a public outcry about American Psycho To add further dimensions to this question this paper will try to provide a deeper insight on the functions of violence in American Psycho To pursue that goal this paper follows a certain structure After providing background information on the author historical context and also the creational process of the book itself violence as portrayed in American Psycho will be analyzed Therefore a theoretical framework which ascribes specific functions to certain forms of violence will be created In a second step the forms of violence as presented in American Psycho will be discussed and classified on the basis of the previously constructed framework After having found named and classified distinct features of violence and their functions in the novel it will be investigated to what extent the horror Bret Easton Ellis has created differs from traditional illustrations of violence and horror The overarching question of this segment will be What did Bret Easton Ellis do differently which would explain the audience s intensive feeling of horror The introductory hypothesis is that

American Psycho was able to use violence on various levels and with multiple functions. Violence is not solely used to assign certain character traits to the protagonist and the society he lives in but also serves as vehicle to overcome the protagonist's problems namely anonymity of the cold hearted world presented in the novel. Furthermore violence also serves as a symbol for a constant and omnipresent threat which creates the feeling of horror. Additionally violence is also used as a provocation while simultaneously hinting at the absence of ethics which then again turns out to be social criticism of the protagonist's world. In addition to this the horror Bret Easton Ellis creates unites well known concepts, brands, locations etc and combines those with an until then unknown feature namely irrational and thereby uncontrollable violence. This creates a feeling of realism which together with the absences of ethics, moral judgment and rationality leaves the reader behind in a more vulnerable state than solely explicit violence in a surreal setting. This hypothesis will be taken up by the end of the paper and will then be verified, falsified or further modified.

The Spaces of Violence James Giles, 2006-04-09. Probes the interrelationship of violence and space in 10 contemporary American novels. James R. Giles examines 10 novels for the unique ways they explore violence and space as interrelated phenomena. These texts are Russell Banks's *Affliction*, Cormac McCarthy's *Outer Dark* and *Child of God*, Lewis Nordan's *Wolf Whistle*, Dorothy Allison's *Bastard Out of Carolina*, Don DeLillo's *End Zone*, Denis Johnson's *Angels*, Sherman Alexie's *Indian Killer*, Robert Stone's *Dog Soldiers* and Bret Easton Ellis's *American Psycho*. These stories take place

in settings as diverse as small towns college campuses suburbs the brokerage houses and luxury apartments of Wall Street football stadiums Appalachian hills and America's no man's land of Greyhound bus stations and highways Violence Giles finds is mythological and ritual in many of these novels whereas it is treated as systemic and naturalistic in others Giles locates each of the novels he studies on a continuum from the mythological to the naturalistic and argues that they represent a fourthspace at the margins of physical social and psychological space a territory at the cultural borders of the mainstream These textual spaces are so saturated with violence that they suggest little or no potential for change and affirmation and are as degraded as the physical social and mental spaces out of which they emerge A concluding chapter extends the focus of *The Spaces of Violence* to texts by Jane Smiley Toni Morrison Edwidge Danticat and Chuck Palahniuk who treat the destructive effects of violence on family structures

Citizen Critics Rosa A. Eberly, 2000 The condition of our public discussions about literary and cultural works has much to say about the condition of our democracy and the author argues for more public discourse in classrooms newspapers magazines etc to reclaim a public voice on national artistic matters In this revealing study of the links among literature rhetoric and democracy Rosa A Eberly explores the public debate generated by amateur and professional readers about four controversial literary works two that were censored in the United States and two that created conflict because they were not censored In *Citizen Critics* Eberly compares the outrage sparked by the publication of James Joyce's *Ulysses* and Henry Miller's *Tropic of Cancer* with the relative quiescence that greeted the much more violent and sexually explicit content of Bret Easton Ellis's *American Psycho* and Andrea Dworkin's *Mercy Through* a close reading of letters to the editor reviews media coverage and court cases Eberly shows how literary critics and legal experts defused censorship debates by shifting the focus from content to aesthetics and from social values to publicity By asserting their authority to pass judgments thus denying the authority of citizen critics these professionals effectively removed the discussion from literary public spheres A passionate advocate for treating reading as a public and rhetorical enterprise rather than solely as a private one Eberly

suggests the potential impact a work of literature may have on the social polity if it is brought into public forums for debate rather than removed to the exclusive rooms of literary criticism Eberly urges educators to use their classrooms as protopublic spaces in which students can learn to make the transition from private reader to public citizen American Psycho Michael Calero,2024-06-25 Based on the hit film this graphic novel collects all five issues of the best selling comic book series See Patrick Bateman s infamous New York City killing spree from a brand new perspective as a familiar character from the film is revealed to be much more than they appeared Witness the greatest hits of Patrick s murderous rampage while exploring new revelations in the world of American Psycho in this story that ll make fans see Patrick s bloody story through a whole new lens This limited series also begins the journey of an all new psychopath as social media obsessed millennial Charlie Charlene Carruthers goes on a downward spiral filled with violence Drug fueled partying leads to bloodshed as Charlie leaves a trail of bodies on her way to discovering the truth about her dark nature Masculinity in Contemporary New York Fiction Peter Ferry,2014-08-21 Masculinity in Contemporary New York Fiction is an interdisciplinary study that presents masculinity as a key thematic concern in contemporary New York fiction This study argues that New York authors do not simply depict masculinity as a social and historical construction but seek to challenge the archetypal ideals of masculinity by writing counter hegemonic narratives Gendering canonical New York writers namely Paul Auster Bret Easton Ellis and Don DeLillo illustrates how explorations of masculinity are tied into the principal themes that have defined the American novel from its very beginning The themes that feature in this study include the role of the novel in American society the individual and urban society the journey from innocence to awareness of masculinity the archetypal image of the absent and or patriarchal father the impact of homosocial relations on the everyday performance of masculinity male sexuality and the male individual and globalization What connects these contemporary New York writers is their employment of the one of the great figures in the history of literature the fl neur These authors take the fl neur from the shadows of the Manhattan streets and elevate this figure to the role of self reflexive agent of male subjectivity through which they write counter hegemonic narratives of masculinity This book is an essential reference for those with an interest in gender studies and contemporary American fiction *Freud (RLE: Freud)* Reuben Fine,2013-10-08 In this book originally published in 1963 Dr Fine sets out to describe what Freud said and to re evaluate his views critically in the light of the best knowledge of the time Freud s numerous changes of view his constant searching for the truth wherever it might lead him as well as his resolute adherence to certain hard won positions once he had achieved them are all skilfully traced Freud s intellectual Odyssey is divided into four periods From 1886 to 1895 he was a neurologist investigating hysteria and other nervous disorders Then came his self analysis from 1896 to 1899 the real matrix from which psycho analysis grew The first psycho analytic system of psychology was developed in the period from 1900 to 1914 The remainder of his life from 1914 to 1939 was devoted to the elaboration of ego psychology and heart of contemporary psycho analysis Dr Fine undertook in

writing this book the formidable task of examining the whole body of Freud's thought to clarify what he said and to review his ideas critically in the light of the best available existing knowledge As he says In this process of criticism I have tried to specify which aspects of Freud have stood the test of time and which have not So far as I can see no one has ever before taken the trouble to ask What did Freud actually say How does what Freud said stand up in terms of what we now know In answering these questions Dr Fine develops a major thesis that all modern psycho analysis derives from Freud though it has moved far in many different directions The contention is that emphasis on schools is misleading and has obscured the actual historical growth of the science As he states in his Preface to this volume Dr Fine's conviction is By building on Freud's fundamental insights we can move on most readily to empirical research and thus construct a more satisfactory science of psychology
