Armand A. Fusco Ed.D., 2025-01-21 SLAVE SCHOOLS WHY ARE BLACK STUDENTS HELD IN BONDAGE OF FAILING SLAVE SCHOOLS Abstract This book is unique because it s two books in one Pt I includes all minorities to 2012 Pt II concentrates on black issues between 2012 to 2024 encompassing the racial agenda known as Critical Race Theory based on past slavery However it omits white slavery that started sooner lasted longer and it was cheaper to buy white slaves than black slaves More striking is that absolutely no mention is made of present day bondage slavery where blacks are required by law to attend failing City Schools Although there have been national and state reforms to close the achievement gap between blacks and whites none had succeeded Among the efforts to do so is to eliminate meritocracy measurements and without testing there is no gap to measure Another effort is simply to lower standards which 37 states have done Furthermore to hide the problem is introducing a major disruptor that does nothing to improve academic achievement such as the racial agenda that is causing money woes chaos and conflict among parents and school officials In its extreme form the concept is infused in every school subject K 12 requiring indoctrination rather than education That s the real issue causing the conflict The problem is vividly illustrated with on the 2022 NAEP results with 75% of students below proficiency in math and 67% below in reading with blacks at 16% Then followed by test two states the Connecticut Enigma and the simple solution with the Mississippi Miracle Very important is a step by step approach to show what blacks can do to bring pressure on school officials and school boards to close or turnaround failing schools by kneeling and striking When all else fails then do the school board nightmare *Handbook of Research on School Choice* Mark Berends, 2009-05-07 Since the early 1990s when the nation s first charter school was opened in Minneapolis the scope and availability of school based options to parents has steadily expanded No longer can public education be characterized as a monopoly Sponsored by the National Center on School Choice NCSC this handbook makes readily available the most rigorous and policy relevant research on K 12 school choice Coverage includes charters vouchers home schooling magnet schools cyber schools and other forms of choice with the ultimate goal of defining the current state of this evolving field of research policy and practice Key

Hirsch, Jr., 2010-02-17 This paperback edition with a new introduction offers a powerful compelling and unassailable argument for reforming America s schooling methods and ideas by one of America s most important educators and author of the bestselling *Cultural Literacy* For over fifty years American schools have operated under the assumption that challenging children academically is unnatural for them that teachers do not need to know the subjects they teach that the learning process should be emphasized over the facts taught All of this is tragically wrong Renowned educator and author E D Hirsch Jr argues that by disdaining content based curricula while favoring abstract and discredited theories of how a child learns the

ideas uniformly taught by our schools have done terrible harm to America's students. Instead of preparing our children for the highly competitive information-based economy in which we now live, our schools' practices have severely curtailed their ability and desire to learn. With an introduction that surveys developments in education since the hardcover edition was published, *The Schools We Need* is a passionate and thoughtful book that will appeal to the millions of people who can't understand why America's schools aren't educating our children.
