

PROBLEMS-Chapter 1

1. The lower ends of the two hangers in Fig. 1-41 were at the same elevation before the loads were applied. The horizontal member is of uniform cross section. Find the value of length l if the horizontal member (assumed to be rigid) is horizontal after all loads are acting.
Ans. $l = 38.3$ in.

Figure 1-41 Problem 1.

Solution: To solve this problem we will need to draw a free body diagram as shown below:

The moment at the left rod:

$$48F_s = 1,500 \times 28.5 + 800 \times 6 + 1,000 \times 30 + 900 \times 54$$

$$F_s = \frac{126,150}{48} = 2,628 \text{ lbf}$$

The moment at the right rod:

Tribological Design of Machine Elements D. Berthe, D. Dowson, M. Godet, C.M. Taylor, 1989-10-03 On previous occasions each Symposium has focused attention on a current and significant research topic usually reflecting the interests of the Leeds or Lyon research groups however this time the main focus was on the vitally important subject of technology transfer providing the 154 delegates from 21 countries with the rare opportunity to discuss the impact of their studies on machine design *Mechanical Design of Machine Elements and Machines* Jack A. Collins, Henry R. Busby, George H.

Staab, 2009-10-19 Taking a failure prevention perspective this book provides engineers with a balance between analysis and design The new edition presents a more thorough treatment of stress analysis and fatigue It integrates the use of computer tools to provide a more current view of the field Photos or images are included next to descriptions of the types and uses of common materials The book has been updated with the most comprehensive coverage of possible failure modes and how to design with each in mind Engineers will also benefit from the consistent approach to problem solving that will help them apply the material on the job

Mechanical Engineering Murat Gokcek, 2012-04-11 The book substantially offers the latest progresses about the important topics of the Mechanical Engineering to readers It includes twenty eight excellent studies prepared using state of art methodologies by professional researchers from different countries The sections in the book comprise of the following titles power transmission system manufacturing processes and system analysis thermo fluid systems simulations and computer applications and new approaches in mechanical engineering education and organization systems

Proceedings of EUCOMES 08 Marco Ceccarelli, 2008-11-27 The EUCOMES08 Second European Conference on Mechanism Science is the second event of a series that has been started in 2006 as a conference activity for an European community working in Mechanism Science The first event was held in Obergurgl Austria in 2006 This year EUCOMES08 Conference has come to Cassino in Italy taking place from 17 to 20 September 2008 The aim of the EUCOMES Conference is to bring together European researchers industry professionals and students from the broad ranges of disciplines referring to Mechanism Science in an intimate collegial and stimulating environment In this second event we have received an increased attention to the initiative as can be seen by the fact that the EUCOMES08 Proceedings will contain contributions by authors even from all around the world This means also that there is a really interest to have not only a conference frame but even a need of aggregation for an European Community well identified in Mechanism Science with the aim to strengthen common views and collaboration activities among European researchers and institutions I believe that a reader will take advantage of the papers in these Proceedings with further satisfaction and motivation for her or his work These papers cover the wide field of the Mechanism Science The program of EUCOMES08 Conference has included technical sessions with oral presentations which together with informal conversations during the social program have enabled to offer wide opportunities to share experiences and discuss scientific achievements and current trends in the areas encompassed by the EUCOMES08 conference
