Sophia Huyer, Nancy J. Hafkin, Pierre Giguère, 2007 **The brazilian CFIA model as a mechanism for enhancing protection and respect for socio-economic rights** Marina Martins Martes, 2023-09-28 This research evaluates whether the new model of investment agreement developed by Brazil CFIA is a mechanism for enhancing protection and respect for social and economic rights The research starts by exploring the origins of investment treaties their development and main characteristics It examines why investment treaties and socio economic rights are related by mapping cases in which investment treaties have already impaired the protection of such rights The research then analyzes how these two issues shall be jointly handled It considers international organizations initiatives to regulate business and human rights and investment treaties frameworks that foster sustainable development as well as new investment agreements models developed by different countries and then suggests criteria for evaluating whether an investment treaty is adequate from the socio economic rights standpoint Finally this research investigates the CFIA model brings a brief historical overview evaluates CFIA's wording and examines how some CFIA's institutional mechanisms consider corporate social responsibility issues In conclusion this research asserts that the CFIA model can be a mechanism for enhancing protection and respect for socio economic rights but some concerns particularly related to safeguarding States regulatory space and providing for stronger obligations to investors and States to protect human rights need to be addressed *Development as Freedom* Janna Miletzki, Nick Broten, 2017-07-05 Amartya Sen uses his 1999 work *Development as Freedom* to evaluate the processes and outcomes of economic development Having come to the conclusion that development is best summed up as the expansion of freedom Sen examines traditional definitions and understandings of the term He says people tend to think of freedoms as economic the freedom to enter into market exchanges or political the freedom to vote and be an active citizen and tries to understand why the definition has been so narrow hitherto He concludes that an evaluation of true freedom must necessarily include the freedom to access social services such as healthcare sanitation and nutrition just as much as it must acknowledge economic and political freedoms Evaluating the relevance of the current thinking behind development Sen concludes that

the term freedom cannot simply be about income In many ways measuring income does not account for various unfreedoms manmade or natural bars to wellbeing that hinder development Sen s evaluation is all the more powerful for its clarity The freedom centered perspective has a generic similarity to the common concern with quality of life *Freedoms and Solidarities* Judith R. Blau,Alberto Moncada,2007 Much has been written about growing global disparities in wealth and resources how global capitalism has adversely affected human populations and the environment and the dangers that a unipolar world order poses to peace and global pluralism After summarizing the evidence for these arguments the authors develop two main themes first that there is a growing transformative peoples movement that challenges global capitalism and the imperial superpower and second there is an extraordinary worldwide shift underway in human consciousness that accompanies practical global interdependencies and connectedness The authors provide evidence for an emerging foundation of what philosopher Peter Singer describes as a one world ethic and they show how this ethic is closely connected with what is called the human rights revolution They compare the western liberal conception of freedom with conceptions of freedom found in the writings of Jean Paul Sartre and Amartya Sen and draw from Hannah Arendt s *The Human Condition* to clarify that freedom has both collective and individual dimensions They build on these foundations to address the following topics positive human rights collective goods cosmopolitanism social and cultural pluralism and they pose alternatives to capitalism and liberal democracy The authors work in the tradition of critical social science but go beyond that to encourage readers to engage in emancipatory projects and utopian thinking The worlds peoples face too many terrifying prospects not to engage such projects and thinking CEPAL Review ,2016 *Summary of Amartya Sen's Development as Freedom* Everest Media,2022-05-24T22:59:00Z Please note This is a companion version not the original book Sample Book Insights 1 There is a connection between opulence and achievements but the link may or may not be strong and depend on many other circumstances The issue is not the ability to live forever on which Maitreyee concentrated but the capability to live a good life while you are alive 2 The usefulness of wealth is in the things it allows us to do But this relation is not exclusive or uniform since the impact of wealth on our lives varies with other influences Development must be more concerned with enhancing the lives we lead and the freedoms we enjoy 3 There are many ways in which people are deprived of their freedom For example many people in third world countries lack basic opportunities of health care or functional education or gainful employment or economic and social security 4 Economic development has many dimensions including economic security Political liberty and civil freedoms are also important on their own and do not have to be justified indirectly in terms of their effects on the economy **Key Thinkers on Space and Place** Phil Hubbard,Rob Kitchin,Gill Valentine,2004-05-25 A comprehensive guide to the latest work on space Each entry is a short interpretative essay outlining the contributions made by the key theorists **Laying Ghosts to Rest** Mamphela Ramphele,2008 A penetrating look at the South African transition and what is wrong with it by a prominent commentator A Case Study of HIV Prevention in Reform-era Shanghai Jacinthe
