

Secured By Design (SBD) New Schools 2014 Application & Checklist

Secured by Design (SBD) is a minimum standard for security. Applicants should make themselves familiar with the relevant sections of the website www.securedbydesign.com and consult their local Crime Prevention Design Adviser (CPDA) for site specific information and follow the application process outlined below. Please note that the CPDA is sometimes referred to as the Architectural Liaison Officer (ALO) or Designing Out Crime Officer (DOCO).

You are strongly advised to contact the local CPDA to discuss the development before completing this application checklist, submitting a planning application or completing a Design and Access Statement.

The checklist element of this application is a guide only and does not reference all of the requirements and recommendations of SBD Schools. Also, in many cases, the final requirements for achieving SBD certification for the school will not be known until you have met with the CPDA. Therefore this application **MUST** be read in conjunction with the full SBD Schools document and a meeting arranged with the CPDA. The bracketed numbers refer to some of the clauses and sub clauses in the SBD Schools document.

Should the local planning authority require Secured by Design certification under a planning condition then the development must meet the full requirements of both sections 1 and 2 of the SBD Schools guidance document.

Developers wishing to market this school development as "Secured by Design" may only do so if compliance with both sections 1 and 2 of the SBD Schools guidance document has been achieved or a Secured by Design Pre-Build Agreement has been completed. Should you wish to enter into an SBD Pre-Build Agreement please notify the CPDA who will in turn contact the relevant Secured by Design Development Officer for your area.

Please tick the appropriate boxes to indicate compliance, *but note that additional or alternative measures, which are subject to the local crime risks, may be required by the CPDA.* These alternative and additional measures will be notified to you in writing. Please also note that unless you are informed otherwise by the CPDA in writing you will be expected to achieve all of the applicable requirements as outlined in the SBD Schools document.

Without first gaining advice, opportunities for designing out crime have often been lost by the time a development scheme has gained planning permission. Applicants should be aware that whilst late applications for Secured by Design may be considered by the CPDA, the development may not meet the requirements of SBD if the design, layout or specification is unsatisfactory.
