Figure 3.2a Elevation of the building

Center line plan

The above figure represents the center line diagram of our building in staad pro. Each support represents the location of different columns in the structure. This structure is used in generating the entire structure using a tool called transitional repeat and link steps. After using the tool the structure that is created can be analyzed in staad pro under various loading cases.

Latest Developments in Civil Engineering Krishna Kant Pathak, J. M. S. J. Bandara, Ramakant Agrawal, 2023-10-02 This book comprises select proceedings of the International Conference on Recent Advances in Civil Engineering RACE 2022 The contents of this book focus on the recent advancements and innovations in the field of civil engineering and various related areas such as design and development of new sustainable and smart building materials performance analysis and simulation of steel structures design and performance optimization of concrete structures structural engineering geotechnical engineering water resources engineering and hydraulics transportation and bridge engineering building services design surveying and remote sensing engineering management and renewable energy This book serves as a useful reference to researchers and professionals in the field of civil engineering *Recent Advances in Structural Engineering—Vol. 4 B.* Kondraivendhan, S. A. Vasanwala, Indrajit N. Patel, U. Johnson Alengaram, 2025-11-12 This book presents RAISE 2024 proceedings which cover all the recent advances happening in the Structural Engineering towards the sustainable development and technology among different research areas of Civil Engineering The main objective of this book is to disseminate the recent developments in Structural Engineering and related interdisciplinary research areas This book will cover three main themes including bridge engineering tall concrete structures and interdisciplinary research areas emphasizing their significant applications in sustainable Environment seismic and disaster mitigation and long durable concrete structures *Multidisciplinary Research Area in Arts, Science & Commerce (Volume-3)* Chief Editor- Biplab Auddy, Editor- Nazia Qureshi, Dr. Ratnaprava Parija, Dr. R. Senthamizh Veena, Dr. C. Salma, Milinkumar Maru, Mr Romero D'Souza, 2025-06-25 **Advances in Structural Mechanics and Applications** José António Fonseca de Oliveira Correia, Satyabrata Choudhury, Subhrajit Dutta, 2022-06-02 The proceedings of the conference is going to benefit the researchers academicians students and professionals in getting enlightened on latest technologies on structural mechanics structure and infrastructure engineering Further work on practical applications of developed scientific methodologies to civil structural engineering will make the proceedings more interesting and useful to practicing engineers and structural designers *Recent Advances in Civil Engineering for Sustainable Communities* N. Vinod Chandra Menon, Sreevalsa Kolathayar, Hugo Rodrigues, K. S. Sreekesava, 2024-03-25 This book presents select proceedings of the International Conference on Interdisciplinary Approaches in Civil Engineering for Sustainable Development IACESD 2023 The topics covered include geographic information systems GIS and building information modeling BIM integration of numerical methods for fluid flow modeling and the revolutionary potential of 3D printing within the construction industry This book serves as a resource material for researchers and industry professionals interested in developing solutions for sustainable and resilient infrastructure that aims for communities with Net Zero Targets **Introduction to Sustainable Solution Techniques in Civil and Environmental Engineering Science** Dr. Vanita Aggarwal, Dr. Chadetrik Rout, 2024-09-27

Visualizing the era of urbanization population growth climate change environmental degradation etc the demand for sustainable practices in Civil and Environmental Engineering has never been as important as today The edited book Introduction to Sustainable Solution Techniques in Civil and Environmental Engineering Science is planned to give an overview of certain approaches and methods for addressing these serious issues The book is a collection of selected papers presented at International Conference on Advances in Civil and Environmental Engineering ICACEE 2024 held at Civil Engineering Department M M Engineering College Mullana Ambala Haryana on 14 15 March 2024 This book is not just an academic resource but also a guide for researchers engineers and students who are dedicated to promoting sustainability in their actions It is the duty of all researchers to follow the responsibility for inventing and implementing solutions that not only fulfil day to day requirements but also to protect natural resources and the environment for future generations Therefore the integration of the concept of sustainability into engineering techniques is no longer a choice it is a necessity This book is structured to provide readers with a foundation in sustainable engineering Subsequent chapters look at various approaches and technologies that reflect sustainable practices Topics addressed include sustainable material it is a dynamic process that requires continuous learning adaptation and innovation Mullana September 2024 Dr Vanita Aggarwal Dr Chadetrik Rout Sustainable Development of Smart Cities Infrastructure (SDSCI-2023) (Volume-1) H.K. Sharma, Arun Goel, Pankaj Munjal, 2023-05-25 Sustainable development of smart cities infrastructures is of paramount importance and need to be planned designed constructed operated and de commissioned in a manner that ensures economic social environmental and institutional sustainability over the entire infrastructure life cycle Smart cities infrastructure however be cost effective disaster resilient environmentally friendly conserving natural resources and sustainable ensuring faster delivery of quality and durable structures which include roads building bridges energy and water infrastructures Government of India is going to encourage Public Private Partnership PPP as an alternate option to build most of the infrastructures which can be useful both for green field as well as brown field smart cities projects The present book is a collection of contributed research and review papers presented at the National Conference on Sustainable Development of Smart Cities Infrastructure SDSCI 2023 held at National Institute of Technology Kurukshetra in May 2023 The subject matter is grouped into nine sessions which include research articles pertaining to sustainable development of smart cities urban and rural planning transportation built environment and management sustainable and smart technologies materials construction and maintenance advance modelling characterization of structures energy and environment performance of smart cities infrastructure under extreme loading conditions green buildings structural health monitoring and ICT in smart cities data mining and machine learning for sustainable infrastructure GIS and remote sensing future trends and prospects of smart cities innovative technologies building energy and efficiency and sobriety and sustainable resilience to natural and man made disasters and smart materials etc The book would be a valuable reference for researchers students structural designers site engineers and all related
