Abraham,Dharini Parmar,Suman Khatkar,Bhuvaneshwari,Shikha Gupta,2024-01-07 Community is a larger group than a family or society The impact of people living together in a geographical location will be there on each other in terms of almost everything Health is a factor which is largely proportionate to the environment and people around where an individual life So the health of the whole population living together affects others too Whereas Health is a spectrum which is unique for every individual in a community but gets affected by community s environment therefore it is responsibility of all members of community to maintain and follow healthful lifestyle COMMUNITY The origin of the word community comes from the Latin

word munus which means the gift and cum which means together among each other Therefore community literary means to give among each other Community has some commonalities which is also referred as Media, Culture and Conflict in Africa Osakue Stevenson Omoera,2023-03-28 This volume brings together a range of views and arguments that healthily contribute to global conversations on media culture and conflict in Africa It explores how cultural practices media practices social movements and the possibilities of emerging technologies could be ventilated and directed towards remediating the perilous state of affairs in political social and economic spaces in contemporary Africa As the intersection of culture and conflict is relatively underexplored or under researched in African media studies this book makes an important contribution to the field **Engaging Isolated Communities in Disaster Preparation and Communication in the Philippines**

Dennis John Sumaylo,2023-09-04 This book provides an account of how local government units in the Philippines engage marginalized and geographically isolated communities in taking part in pre disaster communication efforts The book focuses on communities classified by the government as Geographically Isolated and Disadvantaged Areas GIDA on the culturally rich island of Mindanao Philippines The focus is centered on GIDA communities because they are assumed to receive less information and help in relation to their circumstances This book accounts for the disaster preparedness communicative conditions of people living in GIDAS and identifies synergies and tensions in the engagement process As such specific branches of enquiry focus on how information seeking and sharing experiences of GIDA communities inform the current practice of community engagement In taking this research approach this book deliberately gives voice to these marginalized and often silenced communities In general the study examines other possibilities or variables in the pre disaster risk communication process that truly engage geographically isolated and socioeconomically disadvantaged communities in disaster risk reduction and management DRRM Considering the existing methodologies used to engage local communities in DRRM this book looks at ways in which bottom up and top down approaches could be melded together for a transformational level of engagement in these communities The novelty of addressing issues concerning geographically isolated communities in a developing country is a research track worthy of being investigated by academics The book is of interest to students and in development communication and disaster risk communication as well as community engagement practitioners specializing in DRRM The framework proposed in this book for engaging isolated communities is helpful to practitioners in designing planning and implementing pre disaster communication and community engagement programs
