The World after the End of the World Kas Saghafi, 2020-04-01 Examines themes of loss and mourning in the late work of Derrida In this book Kas Saghafi argues that the notion of the end the world in Derrida s late work is not a theological or cosmological matter but a meditation on mourning and the death of the other He examines this and several other tightly knit motifs in Derrida s work mourning survival the phantasm the event and most significantly the term salut which in French means at once greeting and salvation An underlying concern of *The World after the End of the World* is whether a discourse on salut saving being saved and salvation can be dissociated from discourse on religion Saghafi compares Derrida s thought along these lines with similar concerns of Jean Luc Nancy s Combining analysis of these themes with reflections on personal loss this book maintains that for Derrida salutation greeting and welcoming is resistant to the economy of salvation This resistance calls for what Derrida refers to as a spectro poetics devoted to and assigned to the other s singularity
